Puppy Development Coordinator	Anna Pardikes	(303) 922-6231 x 227	apardikes@freedomservicedogs.org

For out-of-state emergencies, the puppy should be taken to a vet clinic or an emergency vet clinic for treatment. FSD consents to stabilizing treatment. As soon as the puppy's condition is stabilized, the FSD Health Department must be notified before further care is provided. A representative from FSD will work with the emergency vet clinic to discuss a treatment plan and payment.

When submitting reimbursement for payment, email htarner@freedomservicedogs.org an itemized receipt, credit card receipt, and treatment notes along with your name and address where a reimbursement check can be mailed.

For in-state emergencies, the puppy should be taken to one of the approved emergency vet hospitals. FSD consents to stabilizing treatment. As soon as the puppy's condition is stabilized, the FSD Health Department must be notified before further care is provided. In an emergency situation in which the approved emergency vet is not a reasonable option, i.e. too far away, the raiser should take the puppy to the nearest emergency veterinary hospital and notify the Health Department at FSD.
